

## How To End A College Application Essay - Examples

### Example 1

Cancer, as powerful and invincible as it may seem, is a mere fraction of a person's life. It's easy to forget when one's mind and body are so weak and vulnerable. I want to be there as an oncologist to remind them to take a walk once in a while, to remember that there's so much more to life than a disease. While I physically treat their cancer, I want to lend patients emotional support and mental strength to escape the interruption and continue living. Through my work, I can accept the shovel without burying my grandmother's memory.

### Example 2

But why college? I want a higher education. I want more than just the textbook fed classrooms in high school. A community which prizes revolutionary ideals, a sharing of multi-dynamical perspectives, an environment that ultimately acts as a medium for movement, similar to the punk rock community. I do not see college as a mere stepping stone for a stable career or a prosperous life, but as a supplement for knowledge and self-empowerment; it is a social engine that will jettison us to our next paradigm shift.

### Example 3

The scientific spark my parents recognized years ago has shaped my life, and with it, I wish to shape the lives of others. I aspire to become a biomedical researcher, a career that harnesses my long-time fascination of science and my commitment to improve the quality of life for those facing medical challenges. It would be a privilege to work alongside scientists, exploring new treatments and technologies to create exciting new options for patients and their families.
